SUBJECT INDEX

ADENOVIRUS, avian, isolation and identification of, from a case of inclusion body hepatitis in broilers in Malaysia, 556
Age, a method of estimating, eruption of the maxillary first and second molar teeth in cattle as, 355
Airborne spread of Newcastle disease, factors influencing the, 445
Allergic test, the use of, in the diagnosis of *Brucella melitensis* infection in sheep, 456
Antibacterial action, a comparison of the persistence of the, of three iodine sprays on the cow's teat, 491
Antisera, production of, to the heavy chains of chicken immunoglobulins, 501
Artificially inseminated Zebu heifers, synchronization of oestrus with cloprostenol and subsequent calving rates in, 440
Avian adenovirus, isolation and identification of, from a case of inclusion body hepatitis in broilers in Malaysia, 556

Babesia bovis, the detection of babesiosis in bovines by the indirect immunofluorescent antibody test compared to the prevalence of, in cerebral smears, 208
Babesiosis, the detection of, in bovines by the indirect immunofluorescent antibody test compared to the prevalence of *Babesia bovis* in cerebral smears, 208
Behaviour and blood constituents of calves, the effect of road transportation on the, I. Six months old, 228
Beta-hydroxybutyrate, serum, levels, subclinical ketosis and, in dairy cattle, 462
Blood constituents and behaviour of calves, the effect of road transportation on the, I. Six months old, 228
Book reviews:
- Advances in parasitology (W. H. R. Lumsden, R. Muller & J. R. Baker), 389
- Animal genetics (F. B. Hutt & B. A. Rasmusen), 270
- An introduction to veterinary immunology (I. Tizard), 275
- A quick reference to veterinary medicine (W. R. Fenner), 273
- Biocontrol of medical and veterinary pests (M. Laird), 565
- Black's verterinary dictionary (G. P. West), 272
- Current therapy in equine medicine (N. E. Robinson), 563
- Current topics in veterinary medicine and animal science:
  - Vol. 12 The mucosal immune system (F. J. Bourne), 179
  - Vol. 14 Advances in the control of theileriosis (A. D. Irvin), 181
  - Vol. 16 Muscle hypertrophy of genetic origin and its use to improve beef production (J. W. B. King & F. Ménissier), 272
  - Vol. 17 Aujeszky's disease (G. Wittman & S. A. Hall), 182
- E.N.T. and oral surgery of the dog and cat (J. G. Lane), 367
- Epidemiology and control of nematodiasis in cattle (P. Nansen, R. J. Jorgensen & E. J. L. Soulsby), 90
- Experimental surgery in farm animals (R. W. Dougherty), 274
- Haemophilus influenzae (D. C. Turk), 89
- Helminths, arthropods and protozoa of domesticated animals (E. J. L. Soulsby), 275
- Positively vetted (E. Straiton), 564
- Poultry diseases (R. F. Gordon & F. T. W. Jordan), 181
- Reproductive clinical problems in the dog (D. E. Jones & J. O. Joshua), 183
- Research animals and concepts of applicability to clinical medicine (K. Gärtner, H. Hackbarth & H. Stolte), 89
- The biology of the coccidia (P. L. Long), 182
- The detection of pregnancy in pigs (M. J. Meredith), 271
- The goatkeepers veterinary book (P. Dunn), 367
- Veterinary applied pharmacology and therapeutics (N. H. Booth & L. E. McDonald), 178
- Veterinary reproduction and obstetrics (theriogenology) (G. H. Arthur, D. E. Noakes & H. Pearson), 468
- Virus diseases of food animals (E. P. J. Gibbs), 91
- WHO/WSAVA guidelines to reduce human health risks associated with animals in urban areas (A. T. B. Edney), 270

Border disease virus infection of the newborn lamb, 129
Bovine leukaemia virus infection:
- and bovine leukaemia, the possibility of specific protection against, with inactivated BLV, 137
- karyotype analysis of lymphocytes from cattle at different stages of, 240

Bovine leukosis virus-infected lymphocytes, effect of heat on, 291
Breeding policy, the use of the prostaglandin analogue cloprostenol and the milk progesterone test to control, in one dairy herd, 104
Breeding season. The effect of an equatorial light environment on reproduction in sheep. I, 338
Broilers in Malaysia, isolation and identification of avian adenovirus from a case of inclusion body hepatitis, 556
Brucella abortus in porcine sera, an indirect enzyme-linked immunosorbent assay for the detection of antibodies to, 495
Brucella melitensis infection in sheep, the use of allergic test in the diagnosis of, 456
Brucella activity, prevalence of serological, in bovines in Rupununi Savannah, Guyana, 236
Buffaloes:
- role of serum enzymes in evaluating flukicidal action of disophenol in *Fasciola*-affected, 262
- swamp, plasma progesterone, oestrone and oestrone sulphate levels during the first half of gestation in, 256

Bunaji and Sokoto Gudali bulls in Nigeria, scrotal circumference, daily sperm production and epididymal spermatozoa in the indigenous, 487

CALCIUM infusion, the effect of, on the electrocardiogram of parturient paretic cows, 192
Calcium, plasma, levels, further observations on the relationship between QTc of an electrocardiogram and, in cows, 23
Calves:
- a comparison of disease in, I. A method of disease recording and its use under different systems of feeding, 423. II. Effect of different management and feeding systems on one farm, 431
- effect of road transportation on the blood constituents and behaviour of, I. Six months old, 228

Calving rate, synchronization of oestrus with cloprostenol and subsequent, in artificially inseminated Zebu heifers, 440
Cannulation, intestinal, a method of, for collection and return of digesta, 507
Cattle:
- analysis of factors influencing reproductive performance of the dairy cow by progesterone assay in milk-fat, 29
- cell growth-promoting activity in mammary secretions of the goat and sheep, 68
- comparison of disease in calves, I. A method of disease recording and its use under different systems of feeding, 423, II. Effect of different management and feeding systems on one farm, 431
- comparison of the persistence of the antibacterial action of three iodine sprays on the cow's teat, 491
- concentrations of oestradiol-17β and progesterone in plasma and defatted milk of, during the oestrous cycle, 49
- contagious bovine pleuropneumonia produced by aerosols artificially generated from cultures of *Mycoplasma mycoides* subsp. *mycoides*, 330
- dairy cow disposals from herds in the Melbread Dairy Herd Health Recording Scheme, 513
- development and application of the counterimmunoelectrophoresis test for the immunodiagnosis of *C. fetus* infection in, 528
- diagnosis of ovarian acyclicity in lactating dairy cows and evaluation of treatment with gonadotrophin-releasing intravaginal device, 522
- effect of calcium infusion on the electrocardiogram of parturient paretic cows, 192
- effect of *Theileria annulata* infection on the immune response of, to foot-and-mouth disease, 378
- endocrine activity of the mammary gland: oestrogen and prostaglandin secretion by the cow and sheep mammary glands during lactogenesis, 171
- eruption of the maxillary first and second molar teeth in, as a method of estimating age, 355
- further observations on the relationship between QTc of an electrocardiogram and plasma calcium levels in cows, 23
- improved enzymeimmunoassay of progesterone applied to bovine milk, 109
- karyotype analysis of lymphocytes from cattle at different stages of bovine leukaemia virus infection, 240
- penetration rate of chilled and frozen sperms from Jersey bulls and levels of certain electrolytes in the oestrous mucus of cows, 452
- possibility of specific protection against bovine leukaemia virus infection and bovine leukaemia with inactivated BLV, 137
- prevalence of serological brucella reactivity in bovines in Rupununi Savannah, Guyana, 236
- pulse rate and milk production in dairy cows, 15
- scrotal onchocerciasis in a bull in Nigeria, 220
- subclinical ketosis and serum beta-hydroxybutyrate levels in dairy, 462
- synchronization of oestrus with cloprostenol and subsequent calving rates in artificailly inseminated Zebu heifers, 440
- unilateral testicular hypoplasia in a White Fulani bull: case report, 204

use of the prostaglandin analogue cloprostenol and the milk progesterone test to control breeding policy in one dairy herd, 104.
Cell growth-promoting activity in mammary secretions of the goat, cow and sheep, 68
Cell-mediated immunity to Marek's disease, evaluation of, 6
Cerebral smears, the detection of babesiosis in bovines by the indirect immunofluorescent antibody test compared to the prevalence of *Babesia bovis* in, 208
Chickens, production of antisera to the heavy chains of chicken immunoglobulins, 501
Chlamydiosis: zoonoses in practice, 93
Cloprostenol:
synchronization of oestrus with, and subsequent calving rates in artificially inseminated Zebu heifers, 440
the use of the prostaglandin analogue, and the milk progesterone test to control breeding policy in one dairy herd, 104
Clostridium fetus infection in cattle, development and application of the counterimmunoelectrophoresis test for the immunodiagnosis of, 528
Clostridium perfringens type D in sheep, vitamin E-enhanced humoral antibody response to, 147
Colombia, South America, a study of infertility in Scottish Blackface sheep in, 349
Contagious bovine pleuropneumonia produced by aerosols artificially generated from cultures of *Mycoplasma mycoides* subsp. *mycoides*, 330
Counterimmunoelectrophoresis test, development and application of the, for the immunodiagnosis of *C. fetus* infection in cattle, 528
Cyclophosphamide for chemical shearing, changing pattern of the serum proteins in asymptomatic sheep treated with, 415

Dermatophilus congolensis precipitating antigens, comparison of, prepared by three methods, 325
Digestibility of dog foods, influence of level of intake and dog size on apparent, 361
Disc electrophoresis of acid-phenol-soluble proteins, comparison of *Haemophilus equigenitalis* (contagious equine metritis organism) and other *Haemophilus* species by, 200
Disease recording, a method of, and its use under different systems of feeding. I. A comparison of disease in calves, 423
Disophenol, role of serum enzymes in evaluating flukicidal action of, in *Fasciola*-affected buffaloes, 262
Disposals, dairy cow, from herds in the Melbread Dairy Herd Health Recording Scheme, 513
Dog, influence of level of intake and size on apparent digestibility of dog foods, 361
Dogs, some aspects of gastric secretory tests in, for diagnostic purposes in two selected cases of stomach disease, 247

ELECTROCARDIOGRAM:
of parturient paretic cows, the effect of calcium infusion on the, 192
QTc of an, further observations on the relationship between, and plasma calcium levels in cows, 23
Endocrine activity of the mammary gland: oestrogen and prostaglandin secretion by the cow and sheep mammary glands during lactogenesis, 171
Enteroviruses, porcine, isolation and identification of, in Great Britain 1979 to 1980, 19
Environment:
effect of an equatorial light, on reproduction in sheep, I. The breeding season, 338
effect of exposure to a hot-humid and a hot-dry, on thyroid hormone values in sheep, 119
Enzymeimmunoassay, an improved, of progesterone applied to bovine milk, 109
Enzyme-linked immunosorbent assay, an indirect, for the detection of antibodies to *Brucella abortus* in porcine sera, 495
Enzymes, role of serum, in evaluating flukicidal action of disophenol in *Fasciola*-affected buffaloes, 262

Fasciola-affected buffaloes, role of serum enzymes in evaluating flukicidal action of disophenol in, 262
Feed-blocks containing fenbendazole, uptake of fenbendazole by grazing sheep with access to, 223
Feeding, a method of disease recording and its use under different systems of. A comparison of disease in calves I, 423, II. Effect of different management and feeding systems on one farm, 431
Fenbendazole, uptake of, by grazing sheep with access to feed-blocks containing fenbendazole, 223
Foetal growth rate, nutritional and placental determinants of, in sheep and consequences for the newborn lamb, 307
Foot-and-mouth disease, the effect of *Theileria annulata* infection on the immune response of cattle to, 378

GASTRIC secretory tests, some aspects of, in dogs for diagnostic purposes in two selected cases of stomach disease, 247
Gastrodiscus aegyptiacus in horses in Guyana, 265
Goat:
cell growth-promoting activity in mammary secretions of the, cow and sheep, 68
progesterone uptake and metabolism by the mammary gland during lactogenesis, 61
Gonadotrophin-releasing hormone or a progesterone-releasing intravaginal device, diagnosis of ovarian acyclicity in lactating dairy cows and evaluation of treatment with, 522
Growth-promoting, cell, activity in mammary secretions of the goat, cow and sheep, 68
Growth rate, foetal, nutritional and placental determinants of, in sheep and consequences for the newborn lamb, 307
Guyana:
Gastrodiscus aegyptiacus in horses in, 265
prevalence of serological brucella reactivity in bovines in Rupununi Savannah, 236

Haemophilus equigenitalis (contagious equine metritis organism) comparison of, and other *Haemophilus* species by disc electrophoresis of acid-phenol-soluble proteins, 200
Horses, *Gastrodiscus aegyptiacus* in, in Guyana, 265
Human breast milk, measurement of progesterone and oestrogen levels in, 59

IMMUNE response of cattle to foot-and-mouth disease, the effect of *Theileria annulata* infection on the, 378
Immunoglobulins, production of antisera to the heavy chains of chicken, 501
Inclusion body hepatitis, isolation and identification of avian adenovirus from a case of, in broilers in Malaysia, 556
Indirect immunofluorescent antibody test, the detection of babesiosis in bovines by the, compared to the prevalence of *Babesia bovis* in cerebral smears, 208
Infertility, a study of, in Scottish Blackface sheep in Colombia, South America, 349
Intestinal cannulation, a method of, for collection and return of digesta, 507
Insulin receptors in milk, 39
Iodine sprays, a comparison of the persistence of the antibacterial action of three, on the cow's teat, 491

JERSEY bulls, penetration rates of chilled and frozen sperms from, and levels of certain electrolytes in the oestrous mucus of cows, 452

KETOSIS, subclinical, and serum beta-hydroxybutyrate levels in dairy cows, 462

LACTOGENESIS:
oestrogen and prostaglandin secretion by the cow and sheep mammary glands during: endocrine activity of the mammary gland, 171
progesterone uptake and metabolism by the goat mammary gland during, 61
Leptospira interrogans serotype *hardjo*, experimental infection in sheep with, 165
Leptospires, experimental infection of pregnant gilts with, isolated from British wildlife. I. Serological response to infection, 393, II. Clinical bacteriological and pathological aspects of infection, 404
Lymphocytes:
effect of heat on bovine leukosis virus-infected, 291
karytype analysis of, from cattle at different stages of bovine leukaemia virus infection, 240

MALAYSIA, isolation and identification of avian adenovirus from a case of inclusion body hepatitis in broilers in, 556
Mammary gland:
endocrine activity of the: oestrogen and prostaglandin secretion by the cow and sheep mammary glands during lactogenesis, 171
goat, progesterone uptake and metabolism by the, during lactogenesis, 61
Mammary secretions, cell growth-promoting activity in, of the goat, cow and sheep, 68
Management, effect of different, and feeding systems on one farm. A comparison of disease in calves II, 431
Marek's disease, evaluation of cell-mediated immunity to, 6
Melbread Dairy Herd Health Recording Scheme, dairy cow disposals from herds in the, 513
Milk:
an improved enzymeimmunoassay of progesterone applied to bovine, 109
defatted, concentrations of oestradiol-17β and progesterone in plasma and, of cattle during the oestrous cycle, 49
factors affecting oestrone sulphate concentrations in, 79
insulin receptors in, 39
measurement of progestagen and oestrogen levels in human breast, 59

production and pulse rate in dairy cows, 15
progesterone test, the use of the prostaglandin analogue colprostenol and the, to control breeding policy in one dairy herd, 104
Miscellany, 102, 267, 363, 464, 560
Mothering ability in two hill flocks, 296
Mycoplasma mycoides subsp. *mycoides*, contagious bovine pleuropneumonia produced by aerosols artificially generated from cultures of, 330

NASAL specimens from pigs, a selective medium for the isolation of *P. multocida* in, 476
Newborn lamb:
Border disease virus infection of the, 129
nutritional and placental determinants of foetal growth rate in sheep and consequences for the, 307
Newcastle disease:
factors influencing the airborne spread of, 445
vaccine, spray vaccination with an improved F. A comparison of efficacy with the B1 and La Sota vaccines, 213
Nigeria:
indigenous Bunaji and Sokoto Gudali bulls in, scrotal circumference, daily sperm production and epididymal spermatozoa of the, 487
scrotal onchocerciasis in a bull in, 220
Nutritional and placental determinants of foetal growth rate in sheep and consequences for the newborn lamb, 307

OESTRADIOL-17β and progesterone, concentrations of, in plasma and defatted milk of cattle during the oestrous cycle, 49
Oestrogen:
and progestagen levels, measurement of, in human breast milk, 59
and prostaglandin secretion by the cow and sheep mammary glands during lactogenesis: endocrine activity of the mammary gland, 171
Oestrogens, plant, ovarian cysts induced by, 38
Oestrone, oestrone sulphate and progesterone, plasma, levels during the first half of gestation in swamp buffaloes, 256
Oestrone sulphate:
concentrations in milk, factors affecting, 79
oestrone and progesterone, plasma, levels during the first half of gestation in swamp buffaloes, 256
Oestrous cycle, concentrations of oestradiol-17β and progesterone in plasma and defatted milk of cattle during the, 49
Oestrous mucus of cows, penetration rate of chilled and frozen sperms from Jersey bulls and levels of certain electrolytes in the, 452
Oestrus, synchronization of, with cloprostenol and subsequent calving rates in artificially inseminated Zebu heifers, 440
Onchocerciasis, scrotal, in a bull in Nigeria, 220
Ovarian acyclicity, diagnosis of, in lactating dairy cows and evaluation of treatment with gonadotrophin-releasing hormone or a progesterone-releasing intravaginal device, 522
Ovarian cysts induced by plant oestrogens, 38

PARTURIENT paretic cows, the effect of calcium infusion on the electrocardiogram of, 192
Pasteurella multocida, a selective medium for the isolation of, in nasal specimens from pigs, 476
Penetration rate of chilled and frozen sperms from Jersey bulls and levels of certain electrolytes in the oestrous mucus of cows, 452
Pigs:
an indirect enzyme-linked immunosorbent assay for the detection of antibodies to *Brucella abortus* in porcine sera, 495
experimental infection of pregnant gilts with leptospires isolated from British wildlife, I. Serological response to infection, 393, II. Clinical, bacteriological and pathological aspects of infection, 404
isolation and identification of porcine enteroviruses in Great Britain 1979 to 1980, 19
selective medium for the isolation of *P. multocida* in nasal specimens from, 476
Placental and nutritional determinants of foetal growth rate in sheep and consequences for the newborn lamb, 307
Plasma:
calcium levels, further observations on the relationship between QTc of an electrocardiogram and, in cows, 23
concentrations of oestradiol-17β and progesterone in, and defatted milk of cattle during the oestrous cycle, 49
progesterone, oestrone and oestrone sulphate levels during the first half of gestation in swamp buffaloes, 256
Poultry:
factors influencing the airborne spread of Newcastle disease, 445
isolation and identification of avian adenovirus from a case of inclusion body hepatitis in broilers in Malaysia, 556
slaughter of, further observations on the, 285
Pregnancy determination, a new approach to the use of progesterone levels for, 41
Pregnancy, early, factor: biology and practical application, 52
Pregnant gilts, experimental infection of, with leptospires isolated form British wildlife, I. Serological response to infection, 393, II. Clinical, bacteriological and pathological aspects of infection, 404
Progestagen and oestrogen levels, measurement of, in human breast milk, 59
Prostaglandin:
and oestrogen secretion by the cow and sheep mammary glands during lactogenesis: endocrine activity of the mammary gland, 171
analogue cloprostenol, the use of the, and the milk progesterone test to control breeding policy in one dairy herd, 104
Progesterone:
and oestradiol-17β, concentrations of, in plasma and defatted milk of cattle during the oestrous cycle, 49
an improved enzymeimmunoassay of, applied to bovine milk, 109
assay in milk-fat, analysis of factors influencing reproductive performance of the dairy cow by, 29
levels, a new approach to the use of, for pregnancy determination, 41
milk, test, the use of the prostaglandin analogue cloprostenol and the, to control breeding policy in one dairy herd, 104
oestrone and oestrone sulphate, plasma, levels during the first half of gestation in swamp buffaloes, 256
progesterone-releasing intravaginal device or a gonadotrophin-releasing hormone, diagnosis of ovarian acyclicity in lactating dairy cows and evaluation of treatment with, 522
uptake and metabolism by the goat mammary gland during lactogenesis, 61
Pulmonary adenomatosis, sheep, the diagnosis, occurrence and distribution of, in Scotland, 1975 to 1981, 153
Pulse rate and milk production in dairy cows, 15

Q FEVER—an enigma: zoonoses in practice, 277

REPRODUCTION in sheep, the effect of an equatorial light environment on, I. The breeding season, 338
Reproductive performance, analysis of factors influencing, of the dairy cow by progesterone assay in milk-fat, 29

SALMONELLA infection, the incidence of, in sheep in England and Wales, 1975 to 1981, 386
Salmonellosis: zoonoses in practice, 185
Sarcocystosis: zoonoses in practice, 371
Scotland, the diagnosis, occurrence and distribution of sheep pulmonary adenomatosis in, 1975 to 1981, 153
Scottish Blackface sheep, a study of infertility in, in Colombia, South America, 349
Scrotal:
circumference, daily sperm production and epididymal spermatozoa of the indigenous Bunaji and Sokoto Gudali bulls in Nigeria, 487
onchocerciasis in a bull in Nigeria, 220
Serum proteins, changing patterns of the, in asymptomatic sheep treated with cyclophosphamide for chemical shearing, 415
Shearing, chemical, changing pattern of the serum proteins in asymptomatic sheep treated with cyclophosphamide for, 415
Sheep:
border disease virus infection of the newborn lamb, 129
cell growth-promoting activity in mammary secretions of the goat, cow and, 68
changing pattern of the serum proteins in asymptomatic, treated with cyclophosphamide for chemical shearing, 415
diagnosis, occurrence and distribution of pulmonary adenomatosis in Scotland, 1975 to 1981, 153
effect of an equatorial light environment on reproduction in, I. The breeding season, 338
effect of exposure to a hot-humid and a hot-dry environment on thyroid hormone values in, 119
endocrine activity of the mammary gland: oestrogen and prostaglandin secretion by the cow and, mammary glands during lactogenesis, 171
epidemiology of ovine toxoplasmosis, I. The interpretation of data for the prevalence of antibody in, and other host species, 537. II. Possible sources of infection in outbreaks of clinical disease, 546
experimental infection in, with *Leptospira interrogans* serotype *hardjo*, 165
incidence of salmonella infection in, in England and Wales, 1975 to 1981, 386
mothering ability in two hill flocks, 296
nutritional and placental determinants of foetal growth rate in sheep and consequences for the newborn lamb, 307
study in infertility in Scottish Blackface, in Colombia, South America, 349

uptake of fenbendazole by grazing, with access to feed-blocks containing fenbendazole, 223
use of allergic test in the diagnosis of *Brucella melitensis* in, 456
vitamin E-enhanced humoral antibody response to *Clostridium perfringens* type D in, 147
Slaughter of poultry, further observations on the, 285
Sokoto Gudali and Bunaji bulls in Nigeria, scrotal circumference, daily sperm production and epididymal spermatozoa of the indigenous, 487
Sperm production, daily, scrotal circumference and epididymal spermatozoa of the indigenous Bunaji and Sokoto Gudali bulls in Nigeria, 487
Sperms, penetration rate of chilled and frozen, from Jersey bulls and levels of certain electrolytes in the oestrous mucus of cows, 452
Spray vaccination with an improved F Newcastle disease vaccine. A comparison of efficacy with the B1 and La Sota vaccines, 213
Stomach disease, some aspects of gastric secretory tests in dogs for diagnostic purposes in two selected cases of, 247
Streptococcus suis type 2 infection: zoonoses in practice, 1

TEAT, cow's, a comparison of the persistence of the antibacterial action of three iodine sprays on the, 491
Teeth, eruption of the maxillary first and second molar, in cattle as a method of estimating age, 355
Testicular hypoplasia, unilateral, in a White Fulani bull: case report, 204
Theileria annulata infection, the effect of, on the immune response of cattle to foot-and-mouth disease, 378
Thyroid hormone values in sheep, effect of exposure to a hot-humid and a hot-dry environment on, 119
Toxocariasis: zoonoses in practice, 471
Toxoplasmosis, the epidemiology of ovine, I. The interpretation of data for the prevalence of antibody in sheep and other host species, 537, II. Possible sources of infection in outbreaks of clinical disease, 546
Transportation, the effect of road, on the blood constituents and behaviour of calves, I. Six months old, 228

VACCINATION, spray, with an improved F Newcastle disease vaccine. A comparison of efficacy with the B1 and La Sota vaccines, 213
Vitamin E-enhanced humoral antibody response to *Clostridium perfringens* type D in sheep, 147

WHITE Fulani bull, unilateral testicular hypoplasia in a: case report, 204
Wildlife, experimental infection of pregnant gilts with leptospires isolated from British, I. Serological response to infection, 393, II. Clinical, bacteriological and pathological aspects of infection, 404

ZEBU heifers, synchronization of oestrus with cloprostenol and subsequent calving rates in artificially inseminated, 440
Zoonoses in practice:
chlamydiosis, 93
Q fever—an enigma, 277
salmonellosis, 185
sarcocystosis, 371
Streptococcus suis type 2 infection, 1
toxocariasis, 471
